Sounds, good. Are you at your desk or at home? Can I call for a quick chat?

Hi Tim and Tom,

I'm following up on an aging action item for myself which was to organize a meeting about persistent violations of WQS and the prolonged drought. Is that on the agenda for this meeting with Jane and John? I hastily read lots of these messages and thought this meeting with Jane and John was focused on 303(d).

Let me know if I should check calendars for a separate meeting about the Water Board's continued permission to violate WQS due to the drought. It appears to be v. timely given the temporary urgency change petition and the board workshop coming up

in November.

**Subject:** RE: Persistent violations of WQS

I always like keeping OW in the loop on this kind of thing, especially given that the drought is a national issue.

Not sure who it would be.

Agreed. We need to do it separate from the Bay Delta Team meeting and we would benefit from Valentina joining us. Would we also want a WQS person from the standards office involved?

Tom was nice enough to suggest this framework at my request, and, as he prefaces, the ideas go beyond just the "flow listings" topic suggested by Jane.

Janet, I can give you a quick summary of where we are with numbers 2-4 as they have to do with the way water quality and fish are being managed during the prolonged drought (by the resource & regulatory agencies), and the way those management decisions might affect the setting of future objectives/standards under the comprehensive update of the Bay Delta Water Quality Control Plan.

Thanks, Tim

**Subject:** RE: reply requested by JAN 29th: topics to consider for planned meeting with

Jane and John (4 FEB 2015 @ 1:00) "flow listings"

I'm not understanding some of the issues, so I will need more details (for 2-4). Janet

(1) Actually, my list was a broader set of topics for possibly several meetings, not a proposed agenda for the flows meeting.

(2) Let me know if this gets rescheduled. I am trying to work with OGC on some of the legal issues, and more time would be helpful.

Janet and Terry:

Here's the message from Tom that I mentioned to you at the All Hands meeting that proposes an agenda for the planned meeting with Jane (and John).

Jane may need to reschedule in favor a meeting with State Senator Pavley in Sacramento regarding tools for detecting water losses in municipal distribution systems (a.k.a. the AWWA water audit tool).

As I mentioned, we want to build this agenda with you, so please review and comment on the framework offered by Tom, and we'll refine them to shape our conversation with Jane and John.

Please send me any edits you may have by COB Thursday, JAN 29<sup>th</sup>.

Valentina has been doing some research and outreach to Terry F. and Nick Martorano (State Water Board), and I've encouraged her to send you a separate message about the status of the State's Integrated Reporting cycle, etc.

Thanks, Tim

## **Ex. 5 - Deliberative Process/Attorney Client**

(4) Finally, at some point we need to alert Jane to the San Joaquin Phase I WQS actions. At some point, probably even in my lifetime, the Board will act on Phase 1 and maybe even Phase II, and I think we need to flag these issues for her.

That's all I have. Plan that out as you desire.
